That The Flash Electric was incredible! It was such a wonderful service! They are punctual, respectful, and knowledgeable. With regard to service, they went above and above. Before we began, they informed me of the process and the costs and completed it quite promptly! I'm overjoyed that you can quickly identify my car's problem. I would strongly advise using this firm to repair your vehicle. Electric Flash.

Eric was the real honest person we have dealt with. He not only replied late hours but fixed the issue over phone in my daughters apartment while we were struggling for hours. An exceptional person with service mentality and not take advantage. I even offered to pay but he refused. Very rare to see such honest people. God bless Eric 🙏

I called and left a message about a problem at my home. Eric called back promptly and I described my problem. Eric asked several clarifying questions and suggested what he thought the problem might be. I followed his advice and he was right – one of my GFCI outlets was broken. I replaced the outlet with a new one and my problem was solved! I really appreciate Eric taking the time to talk with me. If I need an electrician I will definitely will call Eric first. I highly recommend Eric!

We have used the flash electric out of athens quite a few times. Their customer service is absolutely amazing and worth writing a review about. They install 4 ceiling fans for me in about 3 hours. They gave me flat rate pricing up front which was great because I knew what to expect. Highly recommend.

I highly recommend this company. I called very early in the morning and got a response immediately. Had service less than a 10 hours. Rafael came out and helped in every way possible to put up a new chandelier. Thank you so much Rafael for your help and with my surprise to my mother.

So happy with The Flash! Tyler was professional, prompt, knowledgeable, and super kind. He did a great job diagnosing the issue with our wiring and was a clear and patient communicator re the whole process. Also just a very pleasant human being to be around! Thanks, Flash— we appreciate you all!

After requesting an appointment and describing the problem, the owner was able to diagnose the most likely cause of my problem. An appointment was scheduled for the next day. Eric called 30min before he arrived, was on time and very professional. I had no power to 3 rooms. Eric found the problem within minutes, fixed the issue and had power restored in less than an hour. I highly recommend Flash Electric and specifically their technician Eric!

Very knowledgeable electricians of The Flash Electric. They repaired my sump pump controller after I had another company out which could not fix it. 5 star experience, easy communication, fair price, and professional service. I will definitely keep their number handy. Highly recommend!

After having several trades people not show up, it was refreshing that Eric and his helper showed up on the proper day and time, did the work (installed photo cell for and outside post lantern) in a reasonable amount of time, and actually charged us what he estimated. Will definitely call him again is needed.
